Sensitivity: Normal

Hi Chris,

This is quite concerning. When can we chat with ecology about this. Maybe you and I should have a call prior?

Please let me know your thoughts?

John

John –

Here is a link that describes the Clean Air Rule from the Department of Ecology at the state level. It has some of the basic information, but I think we should talk about having someone from Ecology talk with you about how to approach.

Thanks Chris. I will review and get back to you shortly. It looks like we might be back next week in Washington.

Do you have the air emission document that we discussed?

John

Take a look at the attached. Call me if you have any questions or would like me to contact folks at these locations for potential visits.

Hey Chris,

Hope all is well with you and you had a successful trip to Japan.

I am hoping to get an update from your team about potential sites that you have identified. Would be available to chat Friday or early next week?

Let me know what might work.

Thanks,

John
